HESAM FARZANEH

AI Infrastructure & LLM Platform Engineer

+98 935 179 1697 | hesam.farzaneh@gmail.com | linkedin.com/in/hesam-farzaneh-12951311b

PROFESSIONAL SUMMARY

AI Infrastructure & LLM Platform Engineer with 12+ years of technology experience spanning enterprise infrastructure, R&D, and production AI systems. Specialized in private/local AI, LLM platforms and gateways, enterprise AI agents, RAG, and workflow automation. Combines deep infrastructure, security, identity, and operations experience with hands-on development of production-oriented AI services for enterprise environments.

CORE SKILLS

AI INFRASTRUCTURE & LLM PLATFORMS Private/Local AI • Local LLM Deployment • LLM Gateways • Open WebUI • RAG • AI Agents • Voice AI • Prompt Engineering

AI APIs & AUTOMATION OpenAI • Claude • Gemini APIs • Enterprise Integrations • Workflow Automation • Internal Assistants

DEVELOPMENT & PLATFORM Python • FastAPI • Docker • LangChain • Git/GitHub • Linux

DATA & INFRASTRUCTURE PostgreSQL • SQL Server • Active Directory • VMware ESXi • MikroTik • PRTG • Sophos UTM • Kaspersky Enterprise • Cisco

PROFESSIONAL EXPERIENCE

Solico Group | Artificial Intelligence Engineer

Jun 2026 - Present

Remote

- **Private/local AI infrastructure:** Designed and deployed secure enterprise infrastructure for open-source LLM integration.
- **Enterprise AI agents:** Built specialized agents connected to enterprise tools, APIs, and operational workflows.
- **IT Support Agent + Jira:** Developed an AI-powered support agent that assists users and automatically creates support tickets from user requests.
- **Enterprise AI platforms:** Worked on controlled access to local and cloud AI models for organizational use.
- **Enterprise requirements:** Designed around identity, security, access control, governance, observability, and operational reliability.

BitPin | AI Engineer / Network Engineer

Apr 2025 - Jun 2026

Bandar-e-Anzali, Gilan, Iran • On-site

- **LLM API Gateway (Token Manager):** Built a centralized gateway supporting 250+ production users, with smart routing and caching for model access and cost control.
- **Open WebUI enterprise platform:** Deployed and operated an AI platform serving 250+ active users across multiple language models.
- **Production AI agents:** Developed agents using OpenAI, Claude, and Gemini APIs for internal workflows, including HR and first-line IT support.
- **Voice AI:** Designed an assistant that processes voice input, understands intent and context with an LLM, and generates voice responses.

TECH Python • FastAPI • Docker • PostgreSQL • Open WebUI • LangChain • Linux • LLM APIs

PROFESSIONAL EXPERIENCE — CONTINUED

Elite Daru | Network Engineer | Multi-Site Infrastructure
Dec 2022 - Mar 2025

Tehran, Iran • On-site

- **Multi-site operations:** Centralized network operations and monitoring across multiple company branches in several provinces.
- **Secure connectivity:** Designed and maintained inter-branch VPN connectivity using MikroTik infrastructure.
- **ERP & monitoring:** Administered ERP-related SQL Server infrastructure and enterprise monitoring with PRTG.
- **Enterprise infrastructure:** Managed Active Directory, Sophos UTM, Kaspersky Enterprise, and VMware ESXi environments.

FANAP | R&D Engineer
2015 - Sep 2022

Tehran, Iran • On-site

- **Banking R&D:** Worked on hardware/software systems, financial automation, and rapid prototyping.
- **Field-force tracking:** Developed an Android application for real-time location, route monitoring, and operational oversight.
- **Cash automation:** Contributed to the design and prototyping of cash-acceptor and automated banking systems.
- **Hardware/software integration:** Built proof-of-concept solutions for enterprise banking equipment and ATM-related systems.

Gilan Science & Technology Park | Software Programmer
Mar 2014 - Mar 2015

Gilan, Iran

- **Software development:** Developed and maintained localized software solutions and contributed to programming tasks within technology incubator projects.

EDUCATION & CERTIFICATIONS

B.Sc. in Computer Software Engineering — Jaber Bin Hayyan University (2011 - 2013)

Certifications CCNA • MCSA • MCSE • Azure Fundamentals (AZ-900) • VMware VCP
